Dear Mrs. Porter,

Former Dallas DA Henry Wade once told me that you live near him.

What he said may interest you.

It is that Mr. Porter used to take the girls to the pond on his farm, I think to fish.

Once when he was there with the girls, perhaps more than once, repair work was being done and he pitched in and helped.

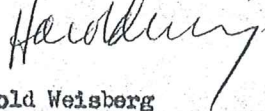

Of which, of course, everyone thinks well and appreciates.

I had no better address for Mr. Wade when I wrote him recently that Rockwall and the post office returned it.

I'd appreciate it if you would please put his correct address on the envelope I enclose, stamped, and forward the returned letter to him. Thanks.

I presume you know that there is not a word of truth in anything relating to the assassination that Rickey White and his wife are using to try to sell a book or documentary.

Thanks and best wishes,

Harold Weisberg
